If you are concerned about when they are accessing a specific site then you can use the Search History tool

Internet Explorer

1 Open the Internet Explorer Browser

2

Click on the favourites star in the top right corner

Select the History Tab and view the sites that have been accessed

Favorites	Feeds	History	~	
View By D	ate			•

You can click on the sites if you wish to open them to see what content they contain.

Chrome Browser History on Android

Press the 3 vertical dots on the top right of the screen

www.TheTechMum.com

3

View the History by scrolling through. You can also Clear Browsing Data.

Safari Browser History on iPad/iPhone

Select the book picture on the top left of the screen

View the History and use Clear at the bottom to reset the history.
